[UTHEALTH](#), HOUSTON, TX

2022 – PRESENT

A \$2.2B university health science center with six campuses throughout the state of Texas, serving over 1,500 students with 44 graduate degree programs and graduated over 9,245 alumni and counting.

[Center Director, George McMillan Fleming Center for Healthcare Management & Associate Professor \(El Paso, TX, Houston, TX & Remote\)](#)

Reporting to Chair of the Department for Management, Policy and Community Health (MPACH) and the El Paso Campus Regional Dean to grow the executive style healthcare management cohort pursuing a Master of Public Health as well as designated to lead strategic activities in the George McMillan Fleming Center for Healthcare Management.

- **State Leadership & Curriculum Development:** Appointed by the Texas Health and Human Services Commission (HHSC) to serve on the Texas Rural Hospital Officers Academy Advisory Committee representing The University of Texas System. Collaborate with HHSC, the Texas Department of State Health Services, Texas Department of Insurance, the State Auditor's Office, and rural hospital leaders to develop the statewide curriculum and instructional framework for the HB18 Rural Hospital Officers Academy, a 100-hour executive leadership program focused on strengthening leadership capacity, financial sustainability, and operational performance across rural hospitals in Texas. **One of eight state-appointed leaders responsible for developing Texas' executive leadership academy to strengthen leadership capacity, financial sustainability, and the future of rural healthcare across the state.**
- **Business Development:** Launched clinician leadership programs, produced a healthcare focused podcast and built a foundation for a healthcare accelerator within 18 months. Leveraged key relationships with professional associations in various communities statewide to recruit guest lecturers, podcast guest, and executive mentors. **These partnerships and strategic placement of programs cultivate a robust network of industry leaders while driving innovation and expanding UTHHealth's statewide impact.**
- **Team Coaching / Mentoring:** Mentor, coach and develop graduate students who have a variety of backgrounds: medical students, residents, dentist, physicians, healthcare management students and other executives to take on existing challenges within healthcare operations by sharing best practices and coaching leadership experiences. **Designed and led two annual executive leadership cohorts that provide coaching and mentorship while building a sustained leadership pipeline aligned with the Fleming Center's long-term strategic priorities.**

[HCA HEALTHCARE](#), NASHVILLE, TN

2015 – 2022

A \$51.5B leading healthcare services provider with 280,000 employees, 185 hospitals, and 2,000+ sites of care throughout the US and the UK.

[Director, Physician Services \(El Paso, TX / Las Cruces, NM\)](#)

Reporting to the Assistant Vice President with a \$68M OPEX, \$5M CAPEX, \$12M Revenue Goal and 130 employees with 10 direct. Responsible for operational excellence for 20+ clinics and 113 providers, which includes acquisition activities and onboarding new physicians to market.

- **Turnaround:** Wait times and patient satisfaction in Cardiology were dismal, and leadership had become complacent. Charged by the Division VP to restore order. Analyzed patient feedback, reviewed with physicians, and formed an actionable plan. Addressed physician arrival times, navigated change resistance, utilized an alarm system to heighten patient service quality, and monitored progress. These efforts elevated patient satisfaction from worst to best in the city (30% to 80%+). **This instilled a culture of patient satisfaction and accountability, which became a Best Practice.**
- **Restructure & Change Management:** Commissioned by the Assistant VP to stabilize operations during the initial surge of COVID-19. In the first 7 days, performed a scheduling capacity analysis, then over the next month met with all clinical leaders, reviewed schedules, and made necessary changes. Implemented the Healo telemedicine platform, heightened safety standards, took a 20% pay cut, and reallocated it to retain staff. **As a result, no layoffs were necessary, and physicians kept a profitable and productive volume despite restrictions on elective procedures.**

HCA HEALTHCARE continued

- **Multisite Operational Improvement:** Patient no-shows/cancellations frustrated leadership. Called upon by the Division VP to reverse trends. The first 30 days, researched appointment adherence and used this to develop a strategy, which included technology improvements, patient portals, redundancy eliminations, and performance improvements. This strategy decreased no-show/cancellations throughout 451 locations by 25% within 90 days and set the MTD average benchmark at 9.5%, which was exceeded by 0.4% in 2019 (for a net revenue increases of \$6M). **All divisions adopted these standards as SOP and Best Practice.**
- **Team Leadership / Coaching / Mentoring:** Patient satisfaction in El Paso was the lowest in the division. Tasked to improve metrics after prior initiatives had failed. Within 90 days, met with all leadership and brainstormed actionable improvement ideas. Increased patient follow-up via cards, electronic surveys, food incentives, wearable buttons, and staff competitions, then used this feedback to create further clinical enhancements. **These efforts lifted scores to 80% within 40 days, which exceeded expectations of 75%, and the market now leads in patient satisfaction.**
- **Divestitures:** Charged by leadership to divest a practice that was causing patient care complications due to misaligned strategy and practices. Over 45 days, navigated terminations, managed transition out of practice, established a non-compete area, reallocated staff, and crafted a strategy to notify patients of the change. **These methodologies retained all patients, elevated morale amongst the remaining physicians, and increased patient satisfaction and quality of care.**
- **Acquisition Due Diligence:** Tasked by the Division VP to acquire nine trauma surgeons and four APP's within 60-90 days. The next 60 days, engaged the doctors and got them signed which was a combination of explaining the acquisition process, demonstrating best-in-class operations, and providing financial support (with an SME). Once persuaded, onboarded/transferred patients with no complications. **This acquisition elevated revenues and enabled the expansion of services that were no longer dependent on 3rd party vendors.**

TEXAS TECH UNIVERSITY HEALTH SCIENCES CENTER, EL PASO, TX

2009 – 2015

*A \$57M graduate and undergraduate clinical research, patient care, and training center for obstetrics and gynecology at Texas Tech University El Paso.*Clinical Administrator, Paul L. Foster School of Medicine*Reporting to the Department Chair with a \$14M OPEX, \$1M CAPEX, \$2M Revenue Goal and 75 employees with 5 direct. Responsible for operations for the clinic's 25 providers.*

- **EBITDA Growth:** The department's \$1M deficit was unrelenting, and the prior department chair had failed to restore order. Promoted and tasked by the CFO to intervene. Analyzed the payor mix, then championed a change management strategy focused on increasing cash procedures, incentivizing OB patients, scripting the call center, and working with billing/coding teams to improve charge lag. **This cultural transformation stabilized EBITDA, overcame the deficit, and facilitated bonuses to physicians by increasing cash reserves.**

Student Advising & Mentorship MPH/Doctoral

- **Academic Advising:** Primary advisor for 14 Master of Public Health (MPH) students during the most recent review period, providing guidance on academic planning, practicum placement, capstone preparation, and career readiness. Doctoral Mentorship: Served as a dissertation committee member for 3 doctoral students, contributing expertise in healthcare management, leadership, and applied professional development. Career
- **Coaching & Professional Development:** Designed and led Career Coaching Cohorts supporting graduate students' transition into the healthcare workforce. Cohorts included 8-12 students once a year with programming focused on leadership identity, interview preparation, professional branding, and executive communication.
- **Practicum & Experiential Learning Mentorship:** Supervised and mentored 9 practicum students in the most recent academic year and 14 total MPH students and interns through Fleming Center initiatives. Practicum placements included applied roles in healthcare leadership training, podcast production, case competition management, program evaluation, and professional development, supporting both on-site and remote experiential learning opportunities.
- **Doctoral Studies Committee:** Member of the Doctoral Studies Committee (DSC), a faculty body responsible for evaluating doctoral student progress through Annual Progress Reports, providing developmental feedback, and shaping program policies and academic standards.
