RESEARCH

Grants and Contracts

Funded Grants

Subcontract-Principal Investigator, Cancer Curricular Advances for Research and Education (ALL Cancer CARE). NIH/NCI, PI: Chang S and Sanchez N 08/01/2022 – 07/31/2027.

Major Goals: To offer a skills development course that provides an overview of key issues in cancer care and research, introduces essential research methods, and connects participants to a network of like-minded professionals, equipping them to conduct research aimed at improving care for medically underserved groups across the cancer care continuum in the US.

Institutional Research Ambassador, Greater Plains Collaborative Optimizing Infrastructure for Conducting Patient-Centered Outcomes Research: PCORnet, The National Patient Centered Clinical Research Network- Phase 4. PI: Bernstam. Patient-Centered Outcomes Research Institute, 11/01/2024 – 10/31/2028.

Major Goals: The Greater Plains Collaborative (GPC) is a network of leading medical centers across the central and southwestern United States (i.e.,

California, Iowa, Kansas, Minnesota, Missouri, Nebraska, Texas, Utah, Wisconsin) committed to a shared vision of improving health through ongoing learning, adopting best care practices and sharing research results.

Co-Investigator, Texas Spatial-Temporal Data Science, Informatics and Modeling Core (TEX-SIM). Cancer Prevention & Research Institute of Texas (CPRIT). PI: Bauer C. 06/01/2025 – 05/31/2030.

Major Goals: To transform cancer population health research in Texas through the creation of an innovative core facility that will provide essential tools and tailored support to researchers, institutions, and communities statewide, enabling data-driven strategies that will enhance access to care and improve cancer outcomes for all Texans.

Current Contracts and Consulting Services

Chair, SWOG Leadership Council on Representation, SWOG/The Hope Foundation, 02/01/2023-01/30/2025.

Major Goals: To advise SWOG leadership on membership and accrual initiatives that support SWOG's strategic plan.

Under review

Principal Investigator, Lymphoma Academic Research Curriculum for the Americas (LARCA). NIH/NCI, PIs: Tami-Maury I and Malpica L, 07/01/2026 – 06/30/2028.

Major Goals: To develop a structured and culturally appropriate curriculum for a training initiative that will foster enduring US-Latin America research partnerships and catalyze high-impact, translational research in virus-associated lymphoma.

Principal Investigator, QuitTech-SUD: An evidence-based and technology-enhanced smoking cessation support for substance use disorder patients, NIH/NIDA, PI: Tami-Maury I, 04/01/2026 – 03/31/2031.

Major Goals: To develop, adapt, and evaluate QuitTech-SUD, an integrated, evidence-based, and technology-enhanced program adapted to patients with substance use disorders during and after inpatient treatment.

Principal Investigator, SmokefreeSUD: Tailored text-based smoking cessation program for Texans with substance use disorders receiving inpatient care, The Hill Prize, Texas Academy of Medicine, Engineering, Science and Technology (TAMEST). PI: Tami-Maury I. 03/01/2026-02/28/2028.

Major Goals: To develop and test the feasibility of a text messaging program tailored to patients receiving inpatient substance use disorder care at a large psychiatric hospital in Houston, Texas.

Completed

Team Leader, Cancer Clear, Communicating Evolving Cancer Information Lab!, NCI Health Communication and Informatics Research Branch, \$15,000, 09/01/2024-08/31/2025.

Major Goals: To operationalize a construct of cancer literacy among sexual and gender minority populations.

Co-Investigator, 2%, Texas Implementation Science Hub to end HIV. PA-20-272. Ending the HIV Epidemic Plan CFAR/ARC Supplement. PI: Balasubramanian

and Markham (Parent Grant P30AI161943), 04/01/2022 – 03/31/2026.

Major Goals: The overarching goal of this project is to establish the Texas Implementation Science Hub to End HIV (aka the Texas IS Hub) as part of the Texas Developmental Center for AIDS Research – a collaboration of three premier institutions in Texas including: Baylor College of Medicine, University of Texas Health Science Center at Houston (UTHealth Houston) and Texas Biomedical Research Institute.

Patient Engagement Officer, Greater Plains Collaborative Optimizing Infrastructure for Conducting Patient-Centered Outcomes Research: PCORnet, The National Patient Centered Clinical Research Network- Phase 3. PI: Waitman L. Patient-Centered Outcomes Research Institute, 09/01/2021 – 12/31/2024.

Major Goals: To improve healthcare delivery through the conduct of patient-centered outcomes research and by efficiently disseminating research results and to increase the adoption of evidence-based practices across 12 leading medical centers in the central United States.

Consultant, Patient-centered liver cancer prevention in the Houston community. IIRA - Individual Investigator Research Award. Cancer Prevention Research Institute of Texas (CPRIT). PI: Hwang J (RP190513), 08/31/2019-08/30/2024.

Major Goals: To develop a comprehensive assessment to efficiently identify persons with risk factors for fibrosis and cirrhosis in the community clinic setting and to determine the effectiveness of a behaviorally-based tailored disease management intervention in patients with risk factors for fibrosis and cirrhosis.

Principal Investigator, Text-based smoking cessation intervention for sexual and gender minority groups. NIH/NCI, PI: Tami-Maury I 09/01/2020-08/31/2024.

Major Goals: To prospectively explore the feasibility of a tailored text-based intervention for smoking cessation targeting lesbian, gay, bisexual, and transgender smokers.

Principal Investigator, Administrative Supplement. NIH/NCI, PI: Tami-Maury I 09/01/2023-08/30/2024.

Major Goals: Increase sample size from 80 to 100 individuals to minimize the impact of the COVID-19 pandemic on the SmokefreeSGM feasibility trial (K22CA237639).

Co-Investigator, Life after Mpox (LAMP) Study: Clinical, Psychosocial and Behavioral Sequelae of the 2022 Monkeypox Outbreak in the US. Centers for Disease Control & Prevention/DHHS, PI: Vigil K (EPI 005-2023), 08/10/2023-08/09/2024.

Major Goals: To assess clinical, psychosocial and behavioral sequelae of the 2022 Mpox (monkeypox) outbreak in the United States.

Principal Investigator, SWOG Tobacco program for Oncology Practice. SWOG/Hope Foundation Impact Award, PI: Tami-Maury I, 01/01/2018-05/31/2023.

Major Goals: To develop and test the feasibility of an eLearning program and an

mHealth tool on brief tobacco counseling specifically designed for Spanish- and Portuguese-speaking cancer care providers.

Co-Investigator, WHO Implementation Research - Technical Assistance. World Health Organization, PI: Fernandez M.
11/01/2021 – 06/15/2022.

Major Goals: To collaborate with the World Health Organization (WHO) on a six-month intensive technical assistance program to the North American Aerospace Defense Command (NORAD) identified countries - Ethiopia, Ghana, Myanmar, Nepal, and India - to define priority areas for implementation research on Noncommunicable diseases (NCDs), identify interventions and guidelines; all culminating in an NCD IR proposal from each country.

Leading Scientist, Community Health Needs Assessment on Tobacco Use among Sexual and Gender Minority Individuals in Houston, TX (2016-2021), City of Houston Health Department, Texas.
January 2022.

Major Goals: To assess trends of tobacco use among sexual and gender minority groups in Houston, Texas, from 2016 to 2021.

Co-Investigator, Sexual and Gender Minority Cancer Curricular Advances for Research and Education (SGM Cancer CARE). NIH/NCI, PI: Chang S and Sanchez N.
07/01/2019-06/30/2021.

Major Goals: To design an up-to-date, useful, competency-based, modular workshop curriculum, which we titled SGM Cancer CARE (Sexual and Gender Minority Cancer: Curricular Advances for Research and Education), for providing participants with knowledge and skills to begin conducting high-quality and culturally appropriate research to improve SGM care across the cancer care Continuum.

Co-Chair, NCI Community Oncology Research Program, Southwestern Oncology Group (SWOG), Recruitment and Retention Committee, SWOG Network Group Operations Center of the NCTN, PI: Blanke C.
09/01/2018-02/28/2020.

Major Goals: To advise the SWOG leadership team on how to better recruit and retain minority patients to SWOG trials and to better recruit and retain minority SWOG members and leaders.

Co-Investigator, Understanding and Addressing Barriers to Enrollment of Adolescents and Young Adults onto Cancer Clinical Trials at NCI Community Oncology Research Program Sites. Children's Oncology Group NCI Community Oncology Research Program (NCORP), PI: Pollock B.
08/01/2018-07/31/2019.

Major Goals: To describe barriers to AYA enrollment onto cancer clinical trials at NCORP sites and determine specific barriers that can be targeted with an intervention to enhance AYA enrollment.

Co-Investigator, Healthy Living after Cancer: Quality of Life and Health Behavior among Breast Cancer Survivors. The University of Texas MD Anderson Cancer Center Sister Institution Network Fund Grant, PI: Basen-Engquist K.

03/01/2017-04/30/2019.

Major Goals: To understand Chilean and Colombian breast cancer survivors' quality of life issues, health behaviors, and weight gain, while also identifying breast cancer survivors' preferences for receiving information and services related to physical activity, weight management, and nutrition, with an emphasis on their use of technology.

Co-Investigator, Tobacco-free teens in Brazil. The University of Texas MD Anderson Cancer Center Sister Institution Network Fund Grant, PI: Karam-Hage M.

07/01/2017-06/30/2019.

Major Goals: To culturally and linguistically adapt ASPIRE, for Portuguese-speaking school-age children in collaboration with three MD Anderson Sister Institutions in Brazil (Barretos Cancer Hospital, Hospital Israelita Albert Einstein, and A.C. Camargo Cancer Center) as well as tobacco specialists from Portugal and Mozambique.

Principal Investigator, Project COMET. The University of Texas MD Anderson Cancer Center Sister Institution Network Fund Grant, PI: Tami-Maury I
01/01/2015-12/31/2019 (No-cost extension: 12/31/2019).

Major Goals: To change tobacco culture and norms in the Instituto de Cancerologia (Medellin, Colombia), the Instituto Nacional de Cancerologia (Mexico City, Mexico), and the Instituto Nacional de Enfermedades Neoplásicas (Lima, Peru) by establishing institutional capacity to promote relevant tobacco cessation services integrated into oncology practice and by developing a cadre of well-trained health care providers in nicotine addiction who will continue to address comprehensive tobacco control strategies for cancer patients in Colombia and Mexico long after the study has ended.

Co-Principal Investigator, Project Quitting Schedule: Adapting and testing a smartphone application for Spanish-speaking cancer patients interested in quitting smoking. The University of Texas MD Anderson Cancer Center Sister Institution Network Fund Grant, PIs: Cinciripini P and Tami-Maury I
01/01/2016-12/31/2018.

Major Goals: To adapt a computer-based program that uses a progressive reduction in the smoking rate into a more-portable tablet/smartphone application (app) and to test this app among smokers diagnosed with cancer in Colombia and Mexico.

Principal Investigator, Project TNT: Tobacco cessation intervention for Lesbian, Gay, Bisexual, and Transgender smokers. The University of Texas MD Anderson Cancer Center Institutional Research Grant, PI: Tami-Maury I.
07/01/2016-06/30/2018 (No-cost extension: 06/30/2019).

Major Goals: To test the feasibility of a novel tailored text-based approach for smoking cessation among sexual and gender minority groups.

Principal Investigator, Behavioral and cultural determinants of betel quid chewing, dependence, and withdrawal in Taiwan. The University of Texas MD Anderson Cancer Center Sister Institution Network Fund Grant, PI: Tami-Maury.
11/01/2012-10/31/2014 (No-cost extension: 08/31/2019).

Major Goals: This project is a collaboration between MD Anderson and China

Medical University Hospital (CMUH) and seeks to characterize betel quid chewers and their withdrawal symptoms, to address an urgent cancer epidemiology issue in Taiwan.

Co-Investigator, ASPIRE International. The University of Texas MD Anderson Cancer Center Sister Institution Network Fund Grant, PI: Prokhorov A
7/1/2015–6/30/2017

Major Goals: Partnering with Colombia, Mexico, and Peru MD Anderson Sister Institutions to culturally adapt and test a tobacco prevention and cessation program targeting Latino adolescents.

Co-Investigator, Informing Vocational Student about Risks of Using Electronic Cigarettes, Pilot Study for the project: Informing and Correcting TCORS Perceptions regarding Tobacco Products among Young Adults. Tobacco Center of Regulatory Science (TCORS) on Youth and Young Adults, PI: Calabro K,
9/1/2015–08/31/2016

Major Goals: To assess whether delivering text messages communicating information about electronic cigarettes is more effective when framing is congruent with the recipients' regulatory focus goals. The results of this study will provide direction in communicating risks and adding to evidence that informs the Food and Drug Administration's policies.

Principal Investigator, Non-invasive oral cancer screening among HIV smokers. Center for AIDS Research (CFAR), Baylor-UT Houston Developmental Mini-Grant Funding for Pilot Projects, PI: Tami-Maury I.
01/01/2016-07/31/2016 (NCE: 07/31/2017).

Major Goals: To evaluate the use of a fluorescence light-based screening handheld device as a clinical adjunct to conventional oral examination among smokers in an HIV dental practice setting.

Co-Investigator, Youth Component Lung Cancer Control and Prevention Moonshot, MDACC, PI - Prokhorov A,
7/1/2015–6/30/2017.

Major Goals: The goal of the Youth Prevention project is to develop feasible, effective and sustainable tobacco prevention and cessation intervention programs in educational and clinical settings that will lead to large-scale, practice-changing public health policies and guidelines. Our intervention studies are age-appropriate, culturally sensitive and impactful. The research team continually explores novel venues and systems to increase engagement in tobacco prevention among youth and families.

Co-Investigator, Combating Tobacco in the United States Army, US Department of Defense (W81XWH-09-2-0033), PI - Prokhorov A
4/1/2009–3/31/2017

Major Goals: Test the effectiveness of a computer-based cigarette smoking and smokeless tobacco prevention and cessation video game among active Army personnel stationed at Fort Hood, Texas.

Principal Investigator, Tobacco prevention and cessation competencies for dental students in Latin America and the Caribbean, Halliburton Employees Postdoctoral Fellowship in Cancer Prevention, The University of Texas MD

Anderson Cancer Center.

01/18/12 – 01/17/2014.

Major Goals: To identify the current perceptions of Latin American and Caribbean dental faculty members regarding the tobacco use prevention and cessation competencies that should be addressed in the dental curricula, the type of training expected, and the available resources for this purpose.

Co-Investigator (Mini-Grant, PI: Saroha E), Postpartum Antiretroviral Therapy Adherence among HIV-infected Black Women. The University of Alabama at Birmingham, 1R25TW007501-01, NIH/Fogarty, Framework Programs for Global Health, PI: Ehiri J.

03/01/2007-02/29/2008.

Major Goals: To investigate adherence to antiretroviral therapy during the postpartum period among a sample of HIV-infected African American women residing in the Southeastern US.
