

**CURRICULUM VITAE  
OF  
MOHAMMAD HOSSEIN RAHBAR, PhD**

**Professor of Epidemiology, Biostatistics, and Clinical & Translational Sciences**

**The University of Texas School of Public Health at Houston  
and**

**Director, Division of Clinical and Translational Sciences  
Department of Internal Medicine, Medical School  
and**

**Director, Biostatistics/Epidemiology/Research Design (BERD) Core  
Center for Clinical and Translational Sciences  
The University of Texas Health Science Center at Houston**

**PERSONAL**

Name: Mohammad Hossein Rahbar

Address (office): 6410 Fannin Street, Suite 1100.05  
Houston, TX 77030

Telephone (office): (713) 500-7901

Fax: (713) 500-0766

E-mail: [Mohammad.H.Rahbar@uth.tmc.edu](mailto:Mohammad.H.Rahbar@uth.tmc.edu)

**UNIVERSITY EDUCATION**

1984 - 1988 PhD in Statistics, Michigan State University (MSU), MI, USA

1978 - 1980 MS in Statistics, Shiraz University, Shiraz, Iran

1974 - 1978 BS in Statistics, Shiraz University, Shiraz, Iran

Shiraz University had an affiliation with University of Pennsylvania-Philadelphia, in the 70's.

## **PROFESSIONAL BACKGROUND**

- 12/1/12-Present      Professor & Director, Division of Clinical and Translational Sciences  
Department of Internal Medicine, Medical School  
The University of Texas Health Science Center at Houston
- 2/1/08-Present      Professor of Epidemiology & Biostatistics (with tenure)  
The University of Texas School of Public Health at Houston  
Director, Biostatistics/Epidemiology/Research Design Core  
Center for Clinical and Translational Sciences  
The University of Texas Health Science Center at Houston
- 4/1/05-1/31/08:      Professor of Epidemiology (Biostatistics) with tenure, and Adjunct Professor, Statistics & Probability, and Director, MSU Clinical Epidemiology Research & Training Center (CERTC), Canadian – USA Clinical Epidemiology Network (CanUSACLEN)
- 9/2001- 3/2005:      Director, Data Coordinating Center  
Professor of Epidemiology (Biostatistics), College of Human Medicine, and Adjunct Professor, Statistics & Probability, MSU
- 2/1999 -9/2001:      Professor & Head, Division of Epidemiology and Biostatistics, Department of Community Health Sciences (CHS), Aga Khan University (AKU)
- 1996 - 2001:      Director, MSc. Epidemiology & Biostatistics Program, CHS, AKU
- 1997 - 2001:      Professor of Biostatistics, CHS, AKU
- 1995 - 1996:      Associate Professor of Biostatistics, CHS, AKU
- 1992 - 1994:      Associate Professor of Statistics, Department of Mathematics, University of Wisconsin-La Crosse (UW-L). Note: (Promoted to Professor of Statistics, Math Department, UW-L, July 1995)
- 1988 - 1991:      Assistant Professor of Statistics, Math Department, UW-L
- 1988 - 1994:      Gundersen Medical Foundation, Biostatistical Consultant
- 1984 - 1988:      Teaching Assistant in Statistics, Statistics & Probability, MSU, Michigan, USA
- 1983 - 1984:      Statistics Instructor, Math Department, Isfahan University of Technology, Isfahan, Iran
- 1981 - 1983      Mandatory Military Services, Iran
- 1978 - 1980      Teaching Assistant, Math Department, Shiraz University, Iran

## **PROFESSIONAL SOCIETIES AFFILIATIONS**

- Editor-in-Chief, American Journal of Autism (AJA), January 2012-January 2017
- Statistical Editor: Journal of Pediatric Infectious Diseases
- Member, Hispanic Health Research Center Community Advisory Board
- Reviewer, Special Emphasis Panel, Office of Extramural Research, CDC National Center for Chronic Disease Prevention and Health Promotion, Study Section for Pregnancy Risk Assessment Monitoring System (PRAMS)
- Member, American Statistical Associations
- Member, International Clinical Epidemiology Network (INCLEN)
- Executive Committee Member, Canadian – USA Clinical Epidemiology Network (CanUSACLEN)
- Member, Maternal and Perinatal Health Research and Reproductive Epidemiology Advisory Group (MAPREG), World Health Organization (WHO), Geneva
- NIH-NCRR Clinical and Translational Sciences Awards, Biostatistics Epidemiology, Research Design (BERD) Key Functions Committee, member 2008-2013; Evaluations Task Force, member 2008-2013; Online Resources Task Force; member 2010-2013
- Served as a Reviewer for 2003 Non-Formula Grants, Pennsylvania Final Performance Review 2009
- Served as a Reviewer for 2008 Non-Formula Grants, Pennsylvania Interim Performance Review 2009
- Member, Houston Area Chapter American Statistical Association (HACASA)
- Served as a Reviewer for Agency for Healthcare Quality Research (AHRQ) Developing Evidence to Inform Decisions about Effectiveness Research Network-2 (DEcIDE-2) Review 2010
- Member, External Advisory Committee for an NIMH funded project, “Study of Health Outcomes in Children with Autism and Their Families”.
- Member of Environmental Epidemiology of Autism Research Network at Autism Speaks
- Served as a Reviewer for Qatar Foundation since 2010
- Serve as a member of External Advisory Board on a NIH R25 training grant awarded to MD Anderson Cancer Center
- Served as a grant reviewer for CDC, NHLBI, NICHD, NIEHS, NIDDK, and DoD
- Reviewer for Selected Topics in Transfusion Medicine, NHLBI (since 2012)
- Reviewer for R13 conference grant applications, NIEHS (2015 and 2017)
- Reviewer for Neurological, Aging and Musculoskeletal Epidemiology (NAME) Study Section (2016)

## **TEACHING EXPERIENCE**

My philosophy in teaching is Problem Based Learning (PBL). I truly enjoy teaching and have tried various innovative teaching and learning methods through assignment of projects on real life problems as well as use of statistical packages. I have experience in teaching both at undergraduate and graduate levels. Since 1978, I have had an opportunity to teach the following courses in five universities with diverse student background.

1. Advanced Design and Analysis Methods in Epidemiology
2. Data Mining
3. Survival Analysis
4. Nonparametric Methods
5. Logistic Regression
6. Biostatistical Consulting
7. Fundamentals of Biostatistics
8. Principles of Epidemiology
9. Advanced Epidemiology
10. General Linear Models
11. Design of Experiments
12. Decision Theory
13. Cost Effectiveness & Cost Analysis
14. Sampling Techniques
15. Protocol Writing
16. Journal Club & Critical Appraisal
17. Quantitative Research Methods
18. Mathematical Statistics I & II
19. Operations Research
20. Calculus I, II, III
21. Algebra; Trigonometry; Pre-Calculus

## **COMPUTER SKILLS & STATISTICAL PACKAGES**

I have taught the following statistical packages in my classes.

- SAS
- SPSS
- Minitab
- Epi-Info

## **ADDITIONAL INFORMATION**

### **a) Experience during employment at The University of Texas Health Science Center at Houston**

- Director, Division of Clinical and Translational Sciences (DCTS), Medical School, The University of Texas Health Science Center at Houston, Dec. 1, 2012 – Present
- Director, Biostatistics/Epidemiology/Research Design Core, Center for Clinical and

Translational Sciences (CCTS), The University of Texas Health Science Center at Houston, Feb. 1, 2008 – Present

- Professor of Epidemiology & Biostatistics, The University of Texas School of Public Health at Houston, The University of Texas Health Science Center at Houston, Feb. 1, 08 – Present
- Member of the Search Committee for Director of Biostatistics Division, The University of Texas School of Public Health at Houston, The University of Texas Health Science Center at Houston, 2008 – 2009
- Member of Planning Committee for the UTSPH concentration in Global Health
- Member of Planning Committee for the UTSPH concentration in Clinical and Translational Sciences
- Member, UTHSC-H CCTS Institutional Data and Safety Monitoring Board, 2008-Present
- Member, UTHSC-H CCTS/CRU Scientific Partners Advancing Research Kick-off (SPARK)
- Served as a member of the advisory group to Community Participation Core of the CCTS
- Served as a statistical consultant to several investigators on campus

**b) Experience during employment at Michigan State University**

- Director, Data Coordinating Center, October 2001- March 31, 2005
- Director, MSU Clinical Epidemiology Research & Training Center (CERTC), Canadian – USA Clinical Epidemiology Network (CanUSACLEN), since 2002
- Chair, Data Coordinating Center's Advisory Committee, 2001-2005
- Chair, Data Coordinating Center's Operations Committee, 2001-2005
- Chair, Search Committee for Biostatistics position, DCC, 2004-2005
- Member, Great Lakes Cancer Institute Scientific Research Group, 2004-2006
- Advisory Board Member, MSU Statistical Consulting & Training Center, since 2004
- Member, Search Committee for Biostatistics position, Epidemiology, 2003, 2005
- Member of Tenure and Promotion Committee, 2002 - 2007
- Member, Epidemiology Admission Committee, 2002-2003
- Chair, Graduate Admission Committee (PhD & Masters), Epidemiology, July 2003 – June 2004
- Chair, PhD thesis Committee, for Dr Azfar Siddiqi, Epidemiology (Successfully Completed in Dec. 2006). Currently he works at the CDC, Atlanta.
- Chair, PhD thesis Committee, for Mr. Sangchoon Jeon, Epidemiology at MSU.

Currently he is employed by Yale School of Nursing as Associate Research Scientist

- Chair, PhD thesis Committee, for Dr. Ali Artaman, Epidemiology, currently he is a consultant to several health organizations in Canada
- Member of PhD Guidance Committee, for Dr M. Mokhtar Arshad, Large Animal Clinical Sciences (Successfully Completed in August 2006)
- Member, Executive Committee of CanUSACLEN, since 2003

**c) Experience during employment at the Aga Khan University (AKU)**

- Head, Division of Epidemiology and Biostatistics, Feb. 1999 – September 2001
- Founding Director, MSc. Program in Epidemiology & Biostatistics, 1996 - 2001
- Developed and implemented MSc. Program in Epidemiology & Biostatistics at AKU
- As thesis supervisor I supervised 11 graduate students in the MSc. Epidemiology
- Served as thesis committee member of 12 other students in MSc. Epidemiology
- Established a Biostatistical Consulting Center in CHS, AKU
- Established research collaboration with faculty members in the clinical and basic sciences departments at AKU, (See Publications).
- Developed and taught Biostatistics courses to medical students at AKU
- Developed and taught short courses in Biostatistics for residents and interns at AKU
- Developed and taught Epi/Bio short courses in the Regional Training Program at AKU
- Developed and taught courses in the MSc. Epidemiology & Biostatistics at AKU
- Developed Biostatistics courses for the Preparatory Year Program at AKU
- Developed Academic Criteria for selection of Preparatory Year Program students
- Developed Biostatistics course for the BScN program at AKU School of Nursing
- Served as an academic advisor to some undergraduate students at AKU

**d) Experience during employment at University of Wisconsin-La Crosse (UWL)**

- Developed and taught Statistics courses in the Math Department
- Developed and taught an advanced level Biostatistics course for the students and faculty members in the Physical Therapy program
- Developed and taught an advanced level course in statistics for graduate programs
- Established research collaboration with faculty members in various departments
- Served as statistician on PhD dissertation of Pat Wilder in the Physical Therapy program at UW-Madison

- Served as statistician on PhD dissertation of Margie Sinner in the Psychology program at UW-Madison
- Served as statistician on thesis committees of several students in various Master programs at UW-L
- Served as the advisor of several students at UW-L
- Served as the academic advisor of the international students at UW-L, 1991-1992

### **COMMITTEE MEMBERSHIP & ADMINISTRATIVE EXPERIENCE**

- Chair, MSc. Epidemiology & Biostatistics Committee, 1996 - 2001
- Chair, Operations Subcommittee, Board of Graduate Studies, AKU, 2000 - 2001
- Coordinator of Research Publications in CHS, AKU, 1998 - 2001
- Member, Board of Graduate Studies at AKU, 1997 - 2001
- Member, Graduate Admission Committee at AKU, 1997 - 2001
- Member, Research Council at AKU, 1998 - 2001
- Member, Information and Technology Advisory Committee at AKU, 1998 - 2001
- Member, PhD Committee in Health Sciences at AKU, 1997 - 2001
- Contributed to the development of course work for various graduate programs at AKU
- Alternate member, Academic Council at AKU, since, 1997 - 2001
- Member, Examination and Promotion Committee at AKU, 1996 - 1998
- Member of an ad-hoc committee reviewing the Appointment and Promotion criteria at AKU, 1997- 1998
- Member, Faculty of Health Sciences Research Committee, AKU, 1997 - 2001
- Member, Admission Advisory Group, AKU, 1996 - 2001
- Member, Preparatory Year Program Committee, AKU, 1995 - 2001
- Served on the Planning and Program Review Committee, UW-L, 1990 - 1992
- Served on the Statistics Committee, Mathematics Department, UW-L, 1988 - 1994
- Served on the Merit Committee, Math Department, UW-L, 1989, 1994
- Served on the Physical Therapy Research Committee, UW-L, 1990 - 1994
- Served on the Environmental Science Committee, UW-L, 1994
- Served on the Library Committee, UW-L, 1994

### **List of graduated MSc Students, Thesis Topics, and my role**

<b>Name</b>	<b>Thesis Topic</b>	<b>My Role</b>
Dr. Shaheena Akbani	Factors leading to irrational drug prescribing in general practitioners of Karachi	Thesis Supervisor
Dr. Abdul Wahid Bhurt	Prevalence of gynecological morbidities in Rural Jamshoro, Sindh	Thesis Committee Member
Dr. Farid-ul-Hasnain	Prevalence and risk factors for stunting, wasting and underweight among children under 5	Thesis Supervisor
Dr. Sarah Jamil	Determinants of unsafe abortion in three squatter settlements of Karachi	Thesis Committee Member
Dr. Arshad Quddus	Neonatal tetanus incidence of mortality and risk factors, district Loralai, Balochistan	Thesis Committee Member
Dr. Abdul Bari	A case-control study of risk factors associated with serological evidence of hepatitis c virus infection in Islamabad-Rawalpindi	Thesis Committee Member
Dr. Bilal Iqbal	Factors associated with the cognitive competence of children ages 4 to 5 in Karachi, Pakistan	Thesis Supervisor
Dr. Ashrafunnisa A. Karim	Factors associated with unawareness of elevated blood pressure among Ismaili-Muslims in Karachi, Pakistan	Thesis Supervisor
Dr. Azfar-e-Alam Siddiqi	Risk of development of clinical tuberculosis among infected individuals identified by a single blood PCR test	Thesis Supervisor
Dr. Siroos Hozhabari	Prevalence and predictors of Malaria among febrile children attending the rural health center Jhangara in Sindh	Thesis Supervisor
Dr. Faran Emmanuel	A matched case control study of factors associated with heroin addiction among male adults in Lahore, Pakistan	Thesis Committee Member
Dr. A. Latif Tareen	Anthropometric assessment of nutritional status in children under 5 years of age in district Quetta, Balochistan	Thesis Supervisor
Dr. Haroon R. Afridi	Prevalence and factors associated with elevated blood pressure among age 15 and above in Federally Administered Tribal Areas of Pakistan	Thesis Supervisor
Dr. Suresh Kumar Rathi	Factors for transmission of mycobacterium tuberculosis infection among household contacts of smear-positive pulmonary tuberculosis cases in Umerkot, Sindh	Thesis Committee Member
Dr. Fazal Ather	Risk factors of nosocomial infections in patients with diabetes admitted to medical, surgical and intensive care units of a tertiary care hospital of Karachi, Pakistan	Thesis Committee Member
Dr. S. Arif Hussain	Utilization of government health services and factors associated with choice of health care provider by mothers and children in Peshawar	Thesis Supervisor
Dr. G. H. Akhund	To assess the extent of, and factors influencing individuals' choice for, utilization of health facilities in a rural community of District Dadu, Sindh, Pakistan	Thesis Supervisor
Ms. Naila Baig Ansari	Care and feeding practices and their association with stunting among young children residing in Karachi's squatter settlements	Thesis Supervisor
Dr. Hussain Raza Usman	A case-control study of risk factors for acute hepatitis B virus infection in Karachi, Pakistan	Thesis Committee Member
Dr. Ahsan Raza	Risk factors for neonatal tetanus in Karachi: a matched case control study	Thesis Committee Member
Ms. Tazeen Saeed Ali	Prevalence and factors associated with postpartum morbidities among Muslim married mothers during postpartum period in squatter settlements of Karachi, Pakistan	Thesis Supervisor
Dr. Ali Artaman	Exposure to oxygen and phototherapy during the perinatal period and their potential effects on acute lymphocytic leukemia	Thesis Supervisor
Dr. Sangchoon Jeon	Analysis of factors associated with time to resolution of pain and fatigue among cancer patients with multiple symptoms in a cognitive behavioral intervention group	Thesis Supervisor
Fei Xue	Fish Consumption and Maternal Hair Mercury levels in Relation to the Risk of Preterm Delivery	Thesis Committee Member
Dr. Muhammad Younus	Salmonella Enteritidis infection in Michigan (1995-2001): Incidence and risk factor analysis	Thesis Committee Member
Jianling Wang	Factor analysis as an approach to summarizing placental vascular pathology findings and their relation to preterm delivery	Thesis Committee Member
Veronika Skorokhod	Vaginal bleeding during the first 20 Weeks of pregnancy and risk of preterm delivery	Thesis Committee Member

### **List of graduated PhD Students at MSU, Dissertation Topics, and my role**

Name	Dissertation Topic	My Role
Dr. Sangchoon Jeon	Evaluation of time to response in system management interventions for pain and fatigue experienced by cancer patients	Primarily as PhD Supervisor but my Role changed to Dissertation Committee Member when I left MSU to join UTHSC-Houston
Dr. Azfar Siddiqi	Factors associated with patient attrition: findings from two clinical trials of cognitive behavioral interventions	PhD Dissertation Supervisor
Dr. Muhammad Younus	Risk factors for sporadic non-typhoidal Salmonella infections in Michigan children: a population-based case-control study	PhD Dissertation Committee Member
Dr. Hussain Raza Usman	Randomized Controlled Trial of Low Cost Interventions to Reduce Childhood Immunization Dropouts in Pakistan	PhD Dissertation Committee Member
Dr. Ali Artaman	Neonatal oxygen and phototherapy and risk of acute lymphocytic leukemia	Primarily as PhD Supervisor but my Role changed to Dissertation Committee Member when I left MSU to join UTHSC-Houston
Dr. Julia Gargano	Mid-pregnancy circulating cytokine levels, histologic chorioamnionitis and spontaneous preterm birth	PhD Dissertation Committee Member

### **List of Graduate Students at UTSPH**

Name	School/Degree Sought/Major	My Role
Ana Sanchez Carrasco	School of Public Health, MSc. Epidemiology	Research Supervisor, 2009
Sartaj Alam	School of Public Health, MSc, Biostatistics	Thesis Committee Member, 2008
Amber Trickey	School of Public Health, PhD, Epidemiology	Faculty Advisor, 2008-2012 PhD Dissertation Supervisor, 2009-2012
Sultan Neslihan Karabulut	School of Public Health, MSc., Epidemiology	Faculty Advisor, 2008-2010 Thesis Committee Member 2008-2010
Zachary Franco	School of Public Health, MSc. Epidemiology	Faculty Advisor, 2010 – 2013 Thesis Committee Supervisor, 2012-2013
Catherine Jannise Elrod	School of Public Health, MSc., Health Policy Research	Thesis Committee Member, 2009-2010
Ayika Ijeoma Emenike	School of Public Health, MSc., Health Policy Research	Thesis Committee Member, 2008-2010
Ashley Lowery	School of Public Health, MPH., Health Policy Research	Thesis Committee Member, 2009-2010
Aisha Dickerson	School of Public Health, PhD Epidemiology	Faculty Advisor, 2010-2014 and PhD Dissertation Faculty Supervisor, 2012- 2014
Jun Ying	School of Public Health, MSc. Epidemiology/Biostatistics	Thesis Supervisor, 2010-2012
Michelle Lynn Marshall	School of Public Health, MPH, Community Health Practice	Thesis Committee Member, 2012-2013
Christine Elaine Mathews	School of Public Health, PhD Epidemiology	PhD Dissertation Committee Member 2008 – Spring 2013
Geoffrey Whitfield	School of Public Health, PhD Epidemiology	PhD Dissertation Committee Member 2008 – Spring 2013
Robert Jamison Reynolds	School of Public Health, PhD Epidemiology	Faculty Advisor, 2010-2012 PhD Dissertation Committee Member, 2012-2013
Farhaan Shaheer Vahidy	School of Public Health, PhD Epidemiology	Faculty Advisor, 2011-2014 PhD Dissertation Supervisor, 2012-2014
Shabnam Azadeh	School of Public Health, PhD Biostatistics	PhD Dissertation Committee Member 2013 - 2015
Hiba Zwiya	School of Public Health, MSc. Epidemiology	Faculty Advisor, 2013 - 2014
Hiba Abdulrahman rash Rashak	School of Public Health, MSc. Epidemiology	Faculty Advisor, 2013 – 2016 Thesis Committee Member

Kristina Vatcheva	School of Public Health, PhD Epidemiology	Faculty Advisor, 2010 – 2015 PhD Dissertation Committee Member
Zenab Yusuf	School of Public Health, MSc. Epidemiology	Thesis Committee Member, 2014 – 2015
Jaennie Yoon	School of Public Health, PhD Epidemiology	PhD Dissertation Committee Member, 2014-present (on personal leave)
MacKinsey Christian	School of Public Health, MSc. Epidemiology	Faculty Advisor and Chair of MSc. Thesis Committee, 2015-2017
MacKinsey Christian	School of Public Health, PhD Epidemiology	Faculty Advisor, 2017-Present
Efehi Igbinomwanhia	School of Public Health, MSc. Epidemiology	Faculty Advisor, 2014 – 2017
Bal K Nepal	School of Public Health, PhD Epidemiology	PhD Dissertation Supervisor and Chair, 2014-2017
Hiba Zwiya	School of Public Health, PhD Epidemiology	Faculty Advisor, 2017-Present
Sepideh Saroukhani	School of Public Health, MSc. Epidemiology	Faculty Advisor, 2016- Summer 2018
Gordon Watt	School of Public Health, PhD Epidemiology	PhD Dissertation Committee Member, 2014-Summer 2018
Sepideh Saroukhani	School of Public Health, PhD Epidemiology	Faculty Advisor, 2018-Present
Bassent Abdelbary	School of Public Health, PhD Epidemiology	PhD Dissertation Committee Member, 2012- Fall 2016
Julie A St. John	School of Public Health, DrPH Health Policy Research	PhD Dissertation Committee Member
Syed Shahzeb aqeel h Jafri	School of Public Health, MSc. Epidemiology	Faculty Advisor
Shezeen Gillani	School of Public Health, MSc. Epidemiology	Faculty Advisor, 2018
Jan Eberth	School of Public Health, PhD Epidemiology	PhD Dissertation Committee Member

### **New Course Development and Teaching activities at the UTSPH**

I developed and taught the following course in Spring Semesters since 2009: Advanced Design and Analysis Methods in Epidemiology. This course is designed for advanced MS and PhD students at the UTSPH.

### **My Teaching Evaluations by Students**

Since 1988, I have taught biostatistics and epidemiology courses and supervised at least 25 Epidemiology graduate students (MSc and PhD) in three different institutions. My student evaluations in all these three institutions classify me as an excellent to an outstanding teacher.

## **ACTIVE RESEARCH GRANTS**

UL1TR003167 (Corresponding PI: McPherson) 07/24/2019-06/30/2022  
 NIH/NCATS (20% effort)

### **Center for Clinical and Translational Sciences-CCTS**

This is the renewal of our University of Texas CTSA award, which is designed to transform clinical research at academic institutions. The award funds the Center for Clinical and Translational Sciences (CCTS). The goal of the CCTS is to facilitate clinical and translational research at The University of Texas Health Science Center at Houston, The University of Texas M. D. Anderson Cancer Center, The University of Texas Health Science Center at Tyler, The University of Texas – Rio Grande Valley, Rice University, and the Memorial Hermann Hospital System, by providing resources and expert advice to investigators.

(Role: Co-Investigator and Director of Biostatistics/Epidemiology/Research Design (BERD))

R01ES022165-01 (PI: Rahbar) 09/12/2013 - 04/30/2020 (30% effort)  
 NIEHS \$ 2,846,888

### **Epidemiological Research on Autism Spectrum Disorders (ASD) in Jamaica: Phase 2**

On this project, the UTHSC-H collaborates with a team of multidisciplinary researchers in the Faculty of Medical Sciences at The University of the West Indies (UWI), Mona Campus, in Kingston, Jamaica, to develop and evaluate the capacity for creating a database of genetic and phenotypic information in Jamaica among ASD cases and their family members. We are conducting population-based etiologic studies of autism in Jamaica, with a particular focus on genetic and environmental factors including six heavy metals (Lead, Mercury, Arsenic, Cadmium, Manganese, and Aluminum), PCBs and OC Pesticides as environmental contaminants and their potential interactions with the GST genes in relation to ASD.

Role: PI

19TPA34860013 (PI: Govindarajan) 07/01/2019-06/30/2022  
 AHA (3% effort)

### **A Novel Surgical Planning Strategy for Optimal Mitral Intervention**

The major goal of this project is to extend the in-house developed finite element (FE) and fluid-structure interaction (FSI) algorithm to simulate mitral valve function and left ventricular flow dynamics across cardiac cycle, automating the workflow for image-FE/FSI evaluation, and create patient-specific mitral valve models to perform virtual surgeries.

(Role: Co-Investigator/Statistician)

10001646 (PI: McCormick) 08/01/2013 - 7/31/2020 (NCE) (10% effort)  
 UTHSCSA / CCMS \$ 1,707,714

### **Implement Medical Homes in HPSA and Other Rural and Impoverished Areas**

The investigators of this project are supported by experienced biostatisticians and data management analysts from the BERD component of the Center for Clinical and Translational Sciences (CCTS) at the University of Texas Health Science Center at Houston. CCTS-BERD provides study design, data management, and statistical support.

Role: Co-Investigator and PI of Data Management and Statistics Core

1451HTX001/10003425 (PI: Reininger) 08/01/2015 - 07/31/2020 (NEC) (5% effort)  
 Methodist Healthcare Ministries of South Texas, Inc./Valley Baptist Legacy Foundation

**Salud y Vida 2.0: Enhancing Integrated Behavioral Health for Individuals with Diabetes in the Rio Grande Valley** \$3,444,576

The goal of this project is to expand integrated behavioral health for individual at-risk for and living with diabetes in the Rio Grande Valley.

Role: Co-Investigator/Statistician

1R01NS094543-01A1 (PI: McCullough) 06/01/2016 – 03/31/2021 (2% effort)  
 NINDS \$2,165,539

**Reversing Age Related Inflammation**

Systemic elevation in chronic, low grade inflammation is seen across almost all peripheral organ systems with aging. This systemic “inflamming” has a major impact on brain function and leaves the brain vulnerable to injury. The main goal of this proposal is to investigate and manipulate the mechanisms by which chronic inflammation impacts the response to ischemic stroke, the leading cause of long-term disability in the elderly.

Role: Co-Investigator/Statistician

1R01HL135092-01 (PI: McPherson) 04/15/2017 - 03/31/2022 (5% effort)  
 NIH/NHLBI \$2,770,726 / \$791,949

**Echogenic Target Liposomes: Transfection/Drug Delivery**

The major goal of this project is to develop a carrier (echogenic immunoliposomes) with novel ultrasound delivery methodologies that have the ability to incorporate therapeutics and enhance delivery to stabilize atherosclerotic beds at the time of intervention.

Role: Co-Investigator/Statistician

Texas Higher Education Coordinating Board (THECB Award Number: 19436) (PI: Rhoads)  
 07/01/2017 - 6/30/2019 \$ 205,225. (Each year) (2% effort)

**Road to discovery for *Bifidobacterium lactis BB-12 + Lactobacillus rhamnosus GG (BB-12+LGG)* in treating autism spectrum disorders: Parent-Directed Treatment**

The major goal of this project is to gain insight into the effect size of probiotic treatment on autistic behaviors, gastrointestinal symptoms, gut inflammation and the fecal microbial community in children with ASD.

Role: Co-Investigator/Statistician

Investigator Initiated Research Project (PI: Reveille) 01/01/2019 – 12/31/2019  
 Spondylitis Association of America

**Outcome Studies in Ankylosing Spondylitis** (2% effort)

The goal of this study is to provide data management and biostatistical support for the PSOAS longitudinal cohort study.

Role: Co-Investigator/Director of Data Management and Statistical Core (DMSC)

W81XWH-18-C0163 (PI: Fox) 09/24/2018 – 09/23/2019  
 MMRD/University of Pittsburgh (2% effort)

**Decision Support for damage Control Resuscitation: Hemorrhage Helper**

The major goal of this project is to determine whether the Hemorrhage Helper integrated decision support system for damage control resuscitation will enable more rapid identification of patients who need massive transfusion (MT) and will improve the adherence to specific principles of Damage Control Resuscitation (DCR) during the initial course of management.

Role: Co-Investigator/Statistician

T32ES027801 (PI: Walker) 09/01/2018 - 08/31/2023 Mentor  
 NIH/NIEHS

**Training in Precision Environmental Health Sciences (TPEHS)**

This is a call for predoctoral and postdoctoral applications for the Training in Precision Environmental Health Sciences (TPEHS) program. The goal of this new program is to train young scientists working at the interface of genetics/epigenetics, environmental health and data science (GxExD). Supported by the National Institute of Environmental Health Sciences, the program offers interdisciplinary training to prepare the next generation of researchers to make important research advances and improve our understanding of environment influences on health and disease. Role: Mentor.

**GRANTS and CONTRACTS 2017-2018 (Pending, submitted, or not funded).**

Prenatal and postnatal exposure to heavy metals, and neurodevelopment and behavior in Jamaican children

(PI: Dr. Rahbar)

Start/End Date 01/01/2018 - 12/30/2023

Funding Agency/Role/Status FIC/NIEHS/PI/ Not funded

Direct Costs/ Indirect Costs \$ 2,499,995 / \$ 499,999

Mitral Valve Dynamic Analysis and Potential Clinical Applications (R01) (McPherson)

Start/End Date 04/01/2018 – 03/31/2023

Funding Agency/Role/Status NIH/NHLBI/Co-I/Renewal Submitted

Direct Costs/ Indirect Costs \$1,249,388/\$688,169

Identification of active lesions without Gd administration using texture analysis

(PI: Dr. Narayana)

Start/End Date 04/01/2018 - 03/31/2023

Funding Agency/Role/Status National Multiple Sclerosis Society (NMSS)/Co-I/ Submitted

Direct Costs/ Indirect Costs \$885,350 / \$88,535

Diffusely abnormal white matter and its correlation with disease progression in Multiple Sclerosis (PI: Dr. Narayana)

NIH/NINDS                                    \$408,919

## Predicting contrast enhancement in multiple sclerosis with real time texture analysis

The main aim of this prospective study is to identify optimal texture signature based on machine learning to identify active lesions on non-contrast MRI that could minimize the need for GBCA administration. The performance of this texture signature will be evaluated on the CombiRx data acquired on a large cohort of patients with MS in a multi-center setting. Similarly, texture signature will be determined that can identify which lesions are likely to convert into tissue destructive lesions.

### **Methods Training in Patient-Centered Cancer Outcomes Research**

The overall goal of this application is to increase the U.S. workforce of cancer researchers conducting Comparative Effectiveness Research/Patient Centered Outcomes Research by providing a comprehensive learning and training program that will be innovative, accessible, and tailored to the needs and expertise of individual participants. CERC offers training in CER/PCOR methodology, provides guidance on promoting stakeholder involvement, assists researchers in obtaining external funding, and fosters collaborations between researchers and established CER/PCOR methodologists.

Role: Co-investigator

NIH/NHLBI \$371,982 (each year)

### **Mitral Valve Dynamic Analysis and Potential Clinical Applications**

Mitral valve (MV) repair is the preferred treatment in patients with MV insufficiency. The unsolved problem in MV repair surgery is predicting which repair is optimal for each patient. The principal aim of this project is to develop a novel computational technique combining 3-D echocardiography with finite element (FE) and fluid-structure interaction (FSI) analyses to evaluate the effects of MV morphology (normal vs. diseased valves, and pre- vs. post-repair) on MV function.

Role: Co-Investigator/Statistician

### **Hypertrophy Regression with N-Acetylcysteine in Hypertrophic Cardiomyopathy (HALT-HCM)**

The primary objective is to perform a pilot study in patients with hypertrophic cardiomyopathy (HCM) to establish safety and gather the pre-requisite data for subsequent robust randomized placebo-controlled efficacy studies with N-acetylcysteine (NAC). We will gather data on the recruitment, accrual, retention, and compliance rates of HCM patients randomized to treatment with a placebo or two escalating doses of NAC. Likewise, we will determine any potential side effects and estimate the effect size of NAC on indices of cardiac hypertrophy.

Role: Co-Investigator/Statistician/PI of the Data Core

### **Safety of Reuteri and Effect on Microbiota and Biomarkers of Intestinal Health in Healthy Infants with Colic**

This project is focused on a population of healthy infants with colic to show safety of a probiotic

that has been shown to reduce crying time in infants with colic. Our Primary Aim is to demonstrate (in a two-year trial) the safety of *L. reuteri* in healthy newborns with colic (n=30), by administering  $5 \times 10^8$  c.f.u. by mouth once daily for 6 weeks. Our Secondary Aims are to determine the effect of *L. reuteri* on: (a)regulating gastrointestinal inflammation as assessed by fecal calprotectin; (b) serum cytokines; (c) circulating regulatory T-cells; and (d) fecal microbiota.

Role: Co-Investigator/Statistician

### **Epidemiological Research on Autism in Jamaica**

On this project faculty at The University of Texas Health Science Center at Houston (UTHSC-H) will collaborate with a team of multidisciplinary researchers in the Faculty of Medical Sciences at The University of the West Indies (UWI), Mona Campus, to develop and evaluate the capacity for creating a database of genetic and phenotypic information in Jamaica among cases with Autism Spectrum Disorder (ASD) and their family members. We provided research training and enhanced the infrastructure to support future large-scale epidemiologic research on ASD in Jamaica. We also conducted pilot work to set the stage for conducting future population-based etiologic studies of autism in Jamaica, with a particular focus on genetic and environmental factors including heavy metals and other environmental contaminants and their potential interactions in relation to ASD.

Role: PI

Role: Co-Investigator/ Director of DCC

5T32HD046377 PI: Paneth 5/1/05-4/30/10 (10% effort)  
 NIH/NICHD \$298,104 (per year)

**Training Program in Perinatal Epidemiology (T32)**

Role: Program faculty

2R01HD034543-05A1 PI: Holzman 9/01/2002 – 8/31/2007 (15% effort)  
 NIH/NICHD \$ 5,241,835 (for 5-years)

**Etiologic Heterogeneity in Preterm Delivery**

Role: Co-Investigator/ Senior biostatistician

5R01CA079280-12 PI: Given B. 4/01/2003 – 3/30/2007 (10% effort)  
 NIH/NCI \$2,961,924 (for 4 years)

**Family Home Care for Cancer – A Community Based Model**

Role: Co-Investigator/Director of DCC

1R01CA101835-01A1 PI: Bradley 5/1/2004 – 2/28/2008 (20% effort)  
 NIH/NCI \$1,630,646 (for 4 years)

**In-Depth Examination of Disparities in Cancer Outcomes**

Role: Co-Investigator/Statistician

1R01HS014206-01 PI: Gardiner 5/1/2004 – 4/30/2007 (10% effort)  
 Agency for Health Care Policy and Research \$977,244 (for 3 years)

**Use of Regression Models in Cost-Effectiveness Analysis**

Role: Co-Investigator

5R01HS009514-06 PI: Gardiner 7/1/2001 – 6/30/2002 (10% effort)  
 Agency for Health Care Policy and Research \$323,000 (for 1 year)

**Statistical Inference for Cost-Effectiveness Analysis**

Role: Co-Investigator

5R01NS045109 PI: LaGamma 12/1/2004-11/30/2008 (10% effort)  
 NIH/NINDS \$980,178 (for 4 years)

**Phase 1 Study of Thyroid Hormone in Prematures**

Role: Co-Investigator/Statistician

Michigan Department of Community Health \$669,414 2003-2004 (10% effort)

**Multilevel Analysis of Medicaid Maternal and Infant Support Services in Michigan**

Role: Co-Investigator/ Statistician

Health & Human Services US Dept. of (HRSA) \$99,830 2003-2004 (10% effort)

**Multi-level analysis of disparities in Preterm Delivery**

Role: Co-Investigator/Statistician

US Dept. of Health & Human Services (HRSA) \$74,598 2002-2003 (10% effort)  
**Using Multi-level Analyses to Explore Ethnic & Socioeconomic Disparities in Rates of Preterm Delivery**  
 Role: Co-Investigator

Michigan Department of Community Health, **2002-2003** \$50,530 (5% effort)  
**Cancer Prevention**  
 Role: Co-Investigator

Health Resources and Services Administration, 2001-2002 \$101,427 (5% effort)  
**African American Women's Health Study: National Study Operation Plan**  
 Role: Statistician

1U01HD040607-01 PI: Goldenberg 9/1/2001-8/31/2006  
 NIH/FIC (\$1.6 million over 5-year period for the AKU site)  
 Global Network for Women's & Children's Health Research  
**Capacity building in Reproductive Health Research in Pakistan as the leading public health priority in the country**  
 Role: Statistician when the grant was submitted but I move to MSU later in 2001

PI: Fikree \$200,000 1996-1998  
**John Snow Inc./Mother Care Project and USAID** project aimed at training of reproductive health care providers, community-based information, education and communication campaign and establishment of a referral system from community to the hospital for women with pregnancy complications.  
 Role: Co-Investigator/Biostatistician

PI: Fikree /Ali \$11,677 2000-2001  
 Population Council New York  
**Traditional Postpartum Practices, Perceived Postpartum Morbidity, and Health Seeking Behavior: A community-based study in Karachi, Pakistan**  
 Role: Co-Investigator

PI: Rahbar  
 International Clinical Epidemiology Network (INCLEN) \$9,886 2000-2001  
**Capacity building in clinical epidemiology at the Aga Khan University, \$2000**  
 Role: PI

PI: Rahbar 1998-1999  
 WHO/EMRO \$15,000  
**Lead levels and sources of lead among the children living near Karachi, Pakistan**  
 Role: PI

AKU Research Council grant entitled "**Development of improved complementary feeding practices and foods in Pakistan: a baseline survey of care and feeding practices and their**

**determinants”** 2000 US \$9819.50

Role: Co-Investigator

AKU Research Council grant entitled “**Prevalence and factors associated with dental carries among children aged 12-14 years in District Bannu, NWFP, Pakistan**” 2000 US \$1800

Role: Co-Investigator

AKU Research Council grant entitled “**The effect of counseling on level of Anxiety and Depression in poor urban women, Karachi, Pakistan**” 2000 US \$18,642

Role: Co-Investigator

AKU Research Council grant entitled “**Determinants of periodontal disease among adults population of Bahawalpur, Punjab, Pakistan**” 2000 US \$2120

Role: Co-Investigator

AKU Research Council grant entitled “**Risk factors for neonatal tetanus in Karachi: A Case-Control study**” 2000 US \$3,404

Role: Co-Investigator

AKU Research Council grant entitled “**Risk factors for non-fatal Myocardial Infarction in young male adults (15-40 years) in Karachi: A Case-Control study**” 2000 US \$3,500

Role: Co-Investigator

Karachi Reproductive Health Project grant for conducting research entitled “**Assessment of the Karachi reproductive Health Project's Program Effectiveness in improving female Sexual Health**” 1997 US \$65,000

Role: Co-Investigator

Aga Khan University seed grant entitled “**Risk factors for intra-familial transmission of hepatitis C virus**” 1998 US \$9000

Role: Co-Investigator

Aga Khan University seed grant entitled “**In urine citrate excretion genetically determined?**” 1997 US \$10,000, Role: Co-Investigator

Aga Khan University seed grant entitled “**Relationship between tumor markers with established predictors and nodal status in carcinoma of the breast**” 1996 US \$6000 Role: Co-Investigator

UW-L Faculty Research Grant entitled “**Optimal Estimation of Regression Parameters using Censored Data with a Discrete Covariates**” 1994 US \$4,500

Role: PI

UW-L Faculty Research Grant entitled “**Nonparametric Estimation of Regression Parameters using Censored Data with two discrete Covariates**” 1993 US \$4,000

Role: PI

UW-L Faculty Research Grant entitled “**Sequential Fixed Width Confidence Intervals for Regression Parameters from Censored Data with a Discrete Covariate**” 1992 US \$3,500  
Role: PI

UW-L Faculty Research Grant entitled “**Nonparametric Estimation of Regression Parameters using Censored Data with a Discrete Covariate**” 1991 US \$3,000  
Role: PI

UW-L Faculty Research Grant entitled “**Sequential Estimation of Functionals of the Survival Curve under Random Censorship**” 1989 US \$2,500

Role: PI

## **BOOK CHAPTERS**

1. Rahbar, E., Desai, S., Mowatt-Larsen, E., & **Rahbar, M.** (2014). Biostatistics. In E. Mowatt-Larsen, S. S. Desai, A. Dua, & C. E. K. Shortell (Eds.), *Phlebology, Vein Surgery and Ultrasonography* (pp. 355-368) Springer International Publishing.

## **PRESENTATIONS (Invited Speaker)**

1. Introduction to Data Mining with a particular focus on predictive modeling, Eastern Virginia Medical School (EVMS)-Sentara Healthcare Analytics and Delivery Science Institute (HADSI), March 5, 2019
2. Knowledge, Attitude, and Practices of General Practitioners in Karachi, Pakistan. The University of the West Indies, Mona, September 9, 2010.
3. Elements of Research. The University of the West Indies, Mona, Jamaica, September 9, 2010.
4. A Nonparametric Method for Assessment of Interactions in a Multi-factor Design with Censored Data. UTSPH Biostatistics Seminar, March 31, 2009.
5. Nonparametric modeling of the mean survival time in a multi-factor design based on randomly right-censored data. Presented to the faculty and staff at the New England Research Institute (NERI), Watertown, MA, May 2006

6. Epidemiology of Autism Spectrum Disorders: A Review. Presented to the faculty at the School of Public Health, The University Texas, Houston, February 2006
7. Factors Associated with Elevated Blood Lead Concentration among Children in Karachi, Pakistan. Presented to the faculty at the School of Public Health, The University Texas, Houston, December 2005
8. Faculty Research Enhancement in Health Sciences: Experience from Michigan State University. Presented to faculty at Virginia Commonwealth University, November 2005
9. Nonparametric modeling of the mean survival time in a multi-factor design based on randomly right-censored data. Presented to the Department of Community Medicine, Faculty of Medicine and Health Sciences at the United Arab Emirates University, Dubai UAE, May 22, 2004
10. Factors Associated with Elevated Blood Lead Concentration among Children in Karachi, Pakistan. Presented to the Institute of Pediatrics, Tashkent, Uzbekistan, February 8, 2004
11. Elevated Concentrations of Blood Lead among Children in Karachi, Pakistan. Presented to the Michigan State University CASID-WID Friday Forum, East Lansing, MI, October 3, 2003
12. Role of Statistics and Epidemiology in Health Research. Presented to the Michigan State University Cardiology Grand Rounds, Lansing, MI., July 1, 2002
13. Cost-Effectiveness Analysis when comparing different strategies for controlling hypertension: A simulation Exercise from Pakistan. Presented at the 13<sup>th</sup> Asian Pacific Cardiology Congress in Manila, October 3-6, 2001
14. Estimation of Link Function between Cost and Effectiveness Measures. Presented at the 7<sup>th</sup> Islamic Countries Conference on Statistical Sciences, Lahore, Pakistan, Jan. 2-5, 2001. (I also chaired the Biostatistics session).
15. Growth Standards for Pakistani Children during the first two years of life. Presented at the 7<sup>th</sup> Statistics Seminar at Karachi University, Karachi, Pakistan, March 8-10, 1999. (I also chaired the Biostatistics session).
16. Pretest Nonparametric Estimation of Regression Parameters from Censored Data. Presented at the 27<sup>th</sup> annual meeting of Statistics Canada, at the University of Regina, Canada, June 6-9, 1999. (I also chaired the Biostatistics session).
17. Nonparametric Estimation of Regression Parameters from Censored Data with a Continuous Covariate. Presented at the 28<sup>th</sup> Iranian Mathematical Conference, Tabriz University, Tabriz, Iran, March, 1997.
18. Status of epidemiology, biostatistics and public health activities in Pakistan. Presented at the Skemp-St. Francis-Mayo Clinic in La Crosse, Wisconsin, July 3, 1997.
