

## DrPH Independent Integrative Learning Experience Approval Form

*An Integrative Learning Experience (ILE) demonstrates synthesis of foundational and major competencies where the student produces a high-quality written product that is appropriate for their education and professional goals.*

**DrPH Students fulfill the ILE through the completion of a dissertation and must meet the following criteria:**

1. Students must generate field-based products consistent with advanced practice that are designed to influence programs, policies or systems addressing public health.
2. Students must demonstrate synthesis of a minimum of two DrPH foundational competencies and two major-specific competencies through the dissertation work and final products.

*A complete inventory of competencies can be found on the [CEPH Competencies](#) webpage.*

*Students and their dissertation committee are encouraged to review the assessment rubric that is included on the [DrPH Independent Integrative Learning Experience Statement of Completion Form](#). The criteria on the rubric are not the only criteria by which students are assessed. Students should familiarize themselves with the criteria to ensure successful completion of the DrPH dissertation requirement.*
